

Shayan Gheidi, PhD

 Canadian (open to relocation) | shayan.gheidi@gmail.com | [Website](#) | [LinkedIn](#)

EDUCATION

- *PhD Physics*, Simon Fraser University, Canada (2022)
- *MSc Physics*, University of Toronto, Canada (2017)
- *BSc Physics*, University of British Columbia, Canada (2016)

WORK EXPERIENCE

Data Scientist October 2025 – Present
Bell Canada, Toronto, ON, Canada

- Built and deployed XGBoost mobility fraud detection models to production at the largest telecom in Canada, preventing \$20M+ in annual losses.
- Engineered fraud-predictive features in BigQuery (SQL) and productionized ML pipelines with Airflow for scalable training and scoring.

Data Scientist May 2022 – November 2024
Euromonitor International, Chicago, IL, USA [*under TN status*]

- Built and deployed logistic regression models to production to detect textual product attributes for millions of goods on a global scale.
- Analyzed terabyte-scale datasets and built Python / SQL (BigQuery) ETL pipelines supporting pricing, nutrition, and availability analytics across 40 countries.
- Developed cloud-based Python applications delivering data insights for client-facing reports.

Doctoral Researcher September 2017 – April 2022
Simon Fraser University, Vancouver, BC, Canada

- Led statistical analysis, modeling, and visualization of spectrometer data for quantum materials.
- Built custom Python regression pipelines, automating experimental analysis workflows.
- Published 5 peer-reviewed papers (265 citations) in top physics journals; co-supervised undergraduates; received Faculty of Science Excellence in Teaching Award.

SKILLS

- **Programming & Data Science:** Python, SQL, R, Jupyter Notebooks, PostgreSQL
- **ML & Analytics:** Machine Learning, Regression, NLP, XGBoost, A/B Testing, Forecasting, Statistical Analysis, Data Visualization, ETL
- **Frameworks & Tools:** TensorFlow, Scikit-learn, Pandas, SciPy, Matplotlib, Tableau, Power BI, Dash, Plotly
- **Cloud & DevOps:** GCP [Google Cloud Platform] (BigQuery, Cloud Run), AWS (Lambda, EC2, ECS, ECR), Microsoft Azure, Docker, Git, CI/CD

CERTIFICATES

- Machine Learning with Python (IBM, Coursera)
- Google Project Management: Professional Certificate (Google, Coursera)
